NEW STUDENT RECORD ILLINOIS STATE UNIVERSITY

Published by the Student Association

Welcome to Illinois State University

Illinois State University

Student Association

Dear New Students,

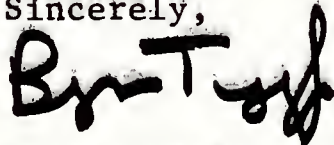

The Student Association is involved each year in an active role working to promote students' rights and to provide viable services. The following pages will hopefully help you to become familiar with the campus and Student Association. Many of the projects developed by the Student Association are in an effort to respond to campus demands as they become present. It is an ongoing process. Whenever the occasion arises please contact us to help whatever the need or issue.

This year, the Fall of 1976 is somewhat unique. There will be student elections in the fall for the first time, Federal and State elections in November, the new Milner Library open for the first time and concerns about Tuition and Room and Board increases will reach student sentiment at an all time high. This is the Fall of '76. And also in '76 immediately after the November elections ISU is making an attempt to veto override the Governor's Budget for this institution so that we'll get more money for academics. The issue is complex and at times emotional. The Student Association is involved and please remember we'll need your support to work and accomplish goals that are for students.

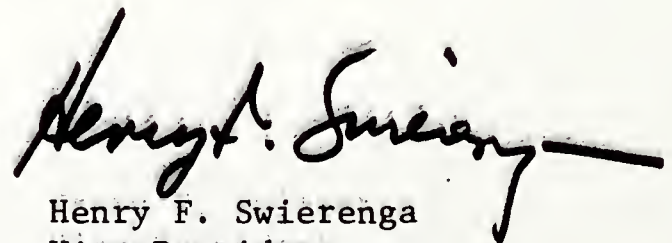

Illinois State University is a good institution and the Student Association wants to help every student as much as possible develop while at this institution. If we can be of service, or the Staff and Assembly, please call upon us, we all want to help. Sometimes we don't have the answer, but we'll find the solution or help you find the solution until we're all satisfied.

Hope you have a good fall, and come by at your convenience.

Sincerely,

Byron Tuggle
President

Henry F. Swierenga
Vice-President

Normal-Bloomington, Illinois

STUDENT ASSOCIATION

The Student Association is an action oriented organization working to provide services to students and to also work to promote students' rights and interests to the University and external agencies. The Preamble to the ISU Student Association Constitution is the following.

We, the students at Illinois State University, desiring to maintain academic freedom, academic responsibility, and student rights; to develop better educational standards, facilities and teaching methods; to improve student cultural, social and physical welfare; to guarantee all people, because of their inherent dignity as individuals equal rights and possibilities for higher education regardless of sex, race, religion, political belief or economic circumstances; to foster the recognition of the rights and responsibilities of students to the University, the community and humanity; to stimulate and improve democratic student representation and by allowing ourselves responsible and effective participation in the academic, economic, political, and service processes, do hereby establish the Constitution for the Student Association of Illinois State University.

EXECUTIVES

The Student Association Executives strive to reflect the views of the Student Association Assembly and to represent the student body to the best of their knowledge by working with students, faculty and administrators whenever student oriented issues are presiding. The Student Association Executives are responsible for the staff operations (i.e., Students' Legal Services, Tenant Union, Printing Services, etc.).

The Student Association Executive Branch consists of the President and the Vice President elected at large each spring. To qualify as an executive candidate a person must have attended the University for at least two full semesters and be in good academic standing. This process is administered by the Student Association Elections Committee.

The President and the Vice President are ex-officio members of the Student Association Assembly, the President's (ISU) Student Fee Advisory Board, and the President is also an ex-officio member of the Academic Senate.

The President is also responsible for making Assembly vetoes and student appointments including Student Association Staff Personnel with the approval of the Assembly.

vidette photo

President Byron Tuggle and Vice-President Henry Swierenga review daily reports of SA operations.

STUDENT ASSOCIATION STAFF

The staff is the service area of the Student Association, working to implement recommendations made by the Assembly at the direction of the President and Vice President. Operations are co-ordinated, if not conducted at the Student Association Building, 225 N. University. A 24 hour telephone service, 436-6661, enables contact with the office day or night. The main office is open from 8:00 a.m. to 4:30 p.m. Monday through Friday.

Students are welcome to visit the staff anytime and possibly get a closer examination of what is being done with your money invested. If you're interested in becoming an active Student Association member there are many avenues ranging from volunteer work, committee positions to staff position. Anyone who is honestly interested in becoming active will have a place with the Student Association projects.

The Student Association Staff is made up of four distinct units; Students' Legal Services, Equal Rights Advocacy, (Tenant Union, Consumer Affairs and University Affairs), Information and Research and the Printing and Services Department.

STUDENTS' LEGAL SERVICES

The Students' Legal Services Office has two full time attorneys who are available to all students for advice, consultation and court representation on most civil and criminal matters. The office staff includes twelve (12) student para legal workers who work directly with clients under the supervision of one of the attorneys. Clients pay a \$5.00 office fee and whatever court costs their case may involve. The office is open from 8:00 a.m. to 4:30 p.m. weekdays. Clients are asked to call (438-2571) in advance for an appointment.

EQUAL RIGHTS ADVOCACY DEPARTMENT

Consumer Affairs Office is a working unit within the Equal Rights Advocacy Department. Since students in higher education are often on a limited budget it is important to stretch money as far as it will go. Consumer Affairs conducts periodic price surveys that once completed are made public to the students. If there is a problem with a product and you want fair satisfaction the Consumer Affairs Office will arbitrate the matter for you. If ultimate efforts can't remedy the problem and there is a legitimate injustice the case will be referred to the Student's Legal Services Office where appropriate legal action can be taken.

The **Tenant Union** offers additional services to the Equal Rights Advocacy Department.

Landlord Inquiries—Any student anticipating ren-

ting from a specific landlord can come to the Tenant Union and look at the file on that landlord. The file will include copies of all complaints against the landlord, the manner in which these complaints were resolved, and any comments that a previous tenant has written and requested that we place in the file.

Lease Counseling—Students that are leasing may bring a copy of the proposed lease that the landlord furnishes to the Tenant Union for this service. You will be advised of the legal impact of all clauses within the lease as well as any clauses that the Tenant Union feels are unfair to the student. For this service to help, the counseling must be done *prior* to signing the lease to enable students to negotiate any unfavorable clauses with their landlord.

Home Exchange Program is in the final stages of completion. This program is to assist students in finding a place to live at the location where they will be student teaching. Once a student receives their student teaching assignment, they can stop by or write to the Tenant Union and they will be furnished with a listing of people that have previously provided housing for student teachers in the area where their assignment is.

Roommate Referral Service is available to assist students that are looking for a place to live or for a roommate to move in with them. Simply stop by the Tenant Union Office and look through our Roommate Referral files. If you don't see what you are looking for, fill out the necessary information on a card and place it in the file.

Complaint Service—If a student has any type of a problem with a landlord or the Housing Office on campus they should contact the Tenant Union. The Tenant Union will make a formal complaint and send it to the landlord along with a reply form. Many times the problem is corrected when the complaint is received. If the problem persists the Tenant Union attempts to arbitrate for the parties involved. If arbitration fails the Tenant Union, in conjunction with Students' Legal Services, will file a suit against the landlord if the situation should warrant it. The only time there is any charge is in the event of a suit where the student must pay \$13.50 for court filing charges.

The **University Affairs Officer**, the last unit of the Equal Rights Advocacy Department, provides immediate informal assistance to students having problems within the University. Often the problems are procedural and University Affairs will link you up with the person who can appropriately act upon your problem. The office serves as a general liaison between members of the University administration and members of the student body.

PRINTING AND SERVICES DEPARTMENT

The Printing and Services Department is the newest and largest department within the Student Association. The **Printing Office** extends mimeo, ditto and copy machines to all ISU students. The only cost is for paper. This office will be open during fall and spring semesters Monday through Thursday from 8:00 a.m. to 8 p.m. and Friday from 8:00 a.m. to 4:30 p.m.

Rider Exchange—A 24 hour ride exchange service is available by calling 436-6054. Riders and drivers can call the Student Association and leave their name, number, social security number, destination, and departure date and time with the electronic answering service. They will be called back and given names and numbers of students going to the same or similar destinations.

Book Exchange—The Book Exchange is sponsored by Student Association at the beginning of each semester. Students bring in used books and set the prices at which they want to sell them. The only cost to the student is a small handling charge which is in-

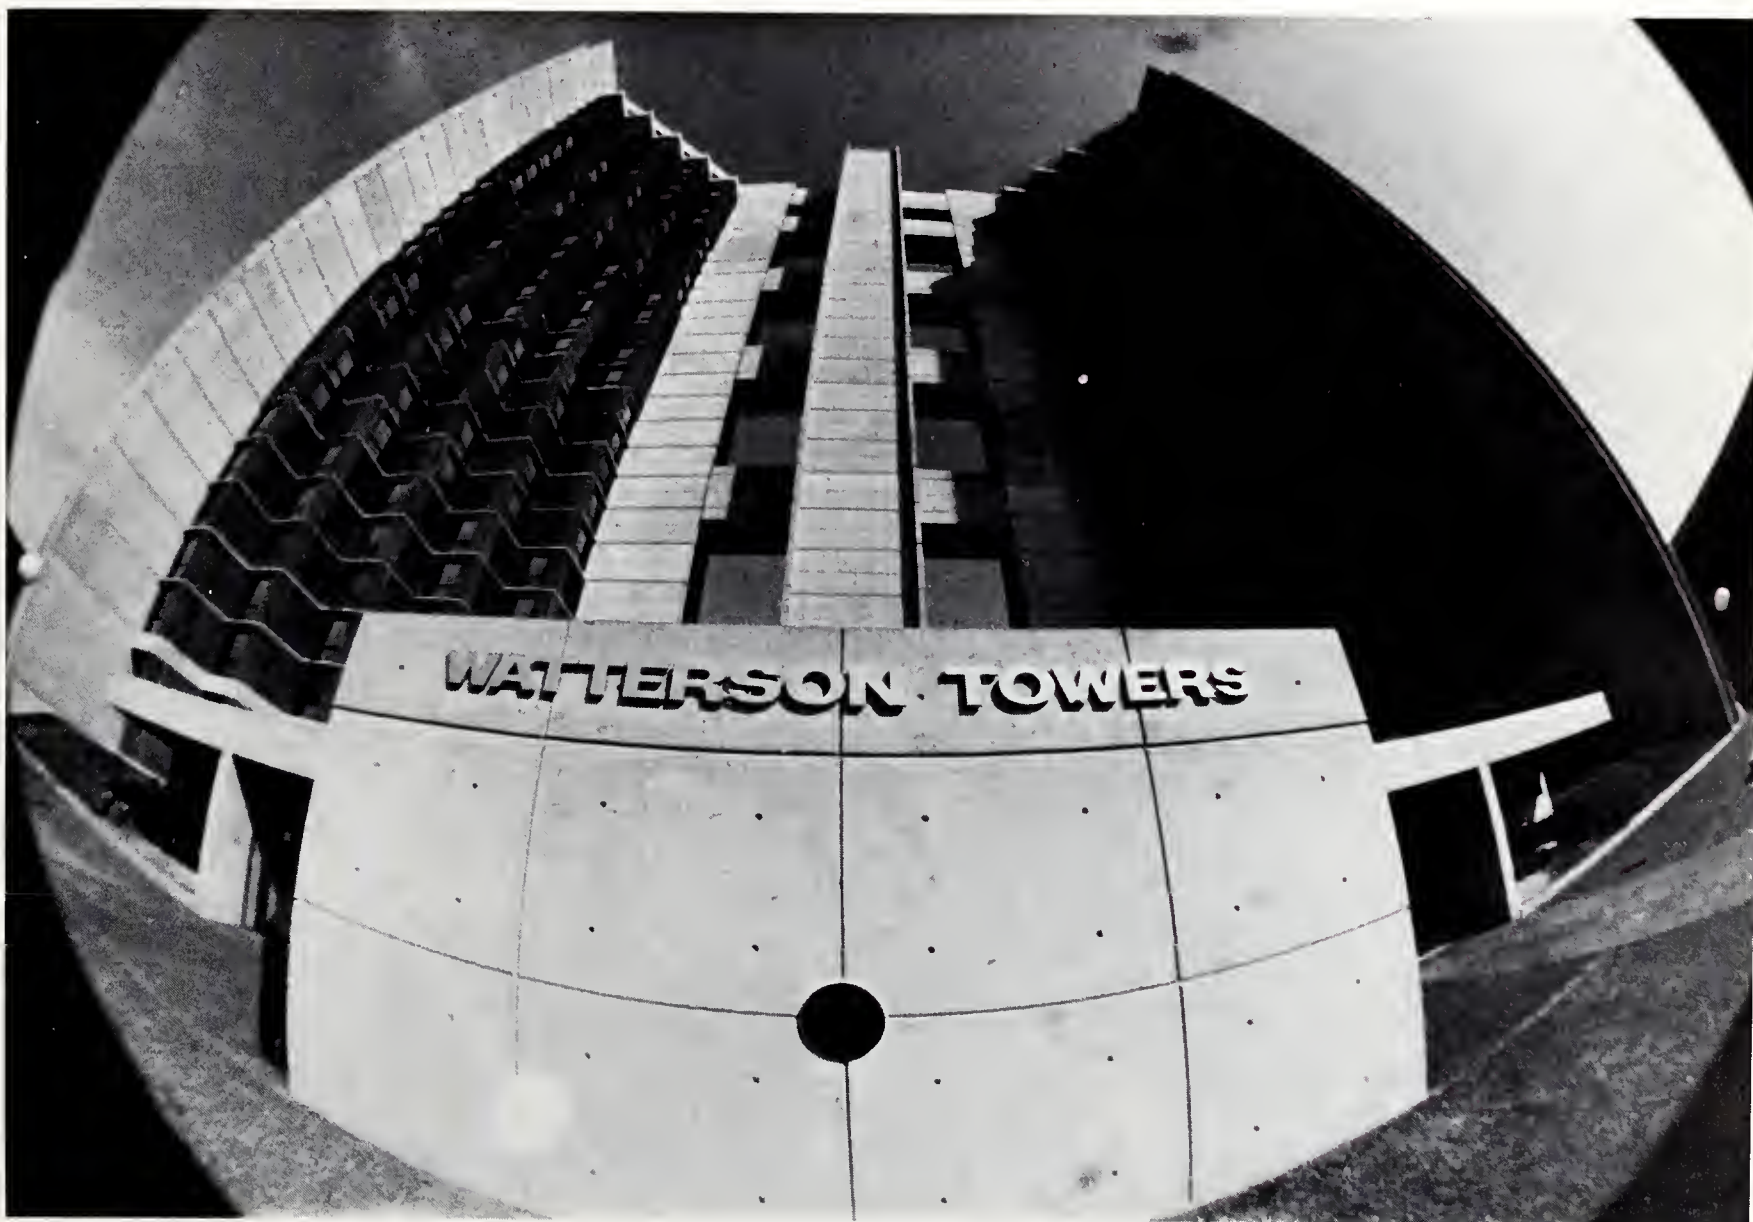

cluded only if the book is sold.

The **Freshman Record** is an introductory yearbook for freshman and transfer students who want a keepsake for their first year at ISU. The yearbook includes information about the University, student organizations and some community programs.

Senior Pictures is another service the Student Association provides since there always seems to be a great demand on the part of parents wanting a picture for graduation. A professional studio sets up operation on campus in the spring and in the fall for one week. There is a student discount for using this program. At the time of receiving your proofs a person can order a yearbook made up of pictures of seniors who had their portrait taken.

Voter Registration is another service within the Printing and Services Department. County registrars visit the campus for several days before each election in order to make it more convenient for students to register. This is a rather new partaking on campuses because it hasn't been too long 18 year olds could vote. This is '76 so remember the old saying, "USE IT OR LOOSE IT."

vidette photo

INFORMATION AND RESEARCH

The Information and Research Department is composed of Research, the Data Bank and the Information Corps. The **Research** Office conducts surveys on the campus to poll student sentiment on particular needs or issues. The Research Office yearly develops reports on Tuition to work for keeping tuition low. The Research Office also conducts studies to see if a particular service is warranted. An example is, the Research Office did a survey to examine the desire of students to have an off/on campus shuttle bus. The need marginally passed.

The **Data Bank** is the information center of Student Association. All records are ultimately kept in the Data Bank and are open to public inspection.

The **Information Corps** is a unit of interns guided by the Director of Information and Research to accumulate legislative information that is related to higher education, since Student Association needs to be aware of legislation concerning students, because only in this knowledge can they fairly represent the

desires of ISU students.

VOLUNTEER CORPS

The Student Association central office, at the beginning of each semester, organizes a Volunteer Corps for the semester. If you're interested in helping an organization working to help others please consider the program. You can work as little or often as you want.

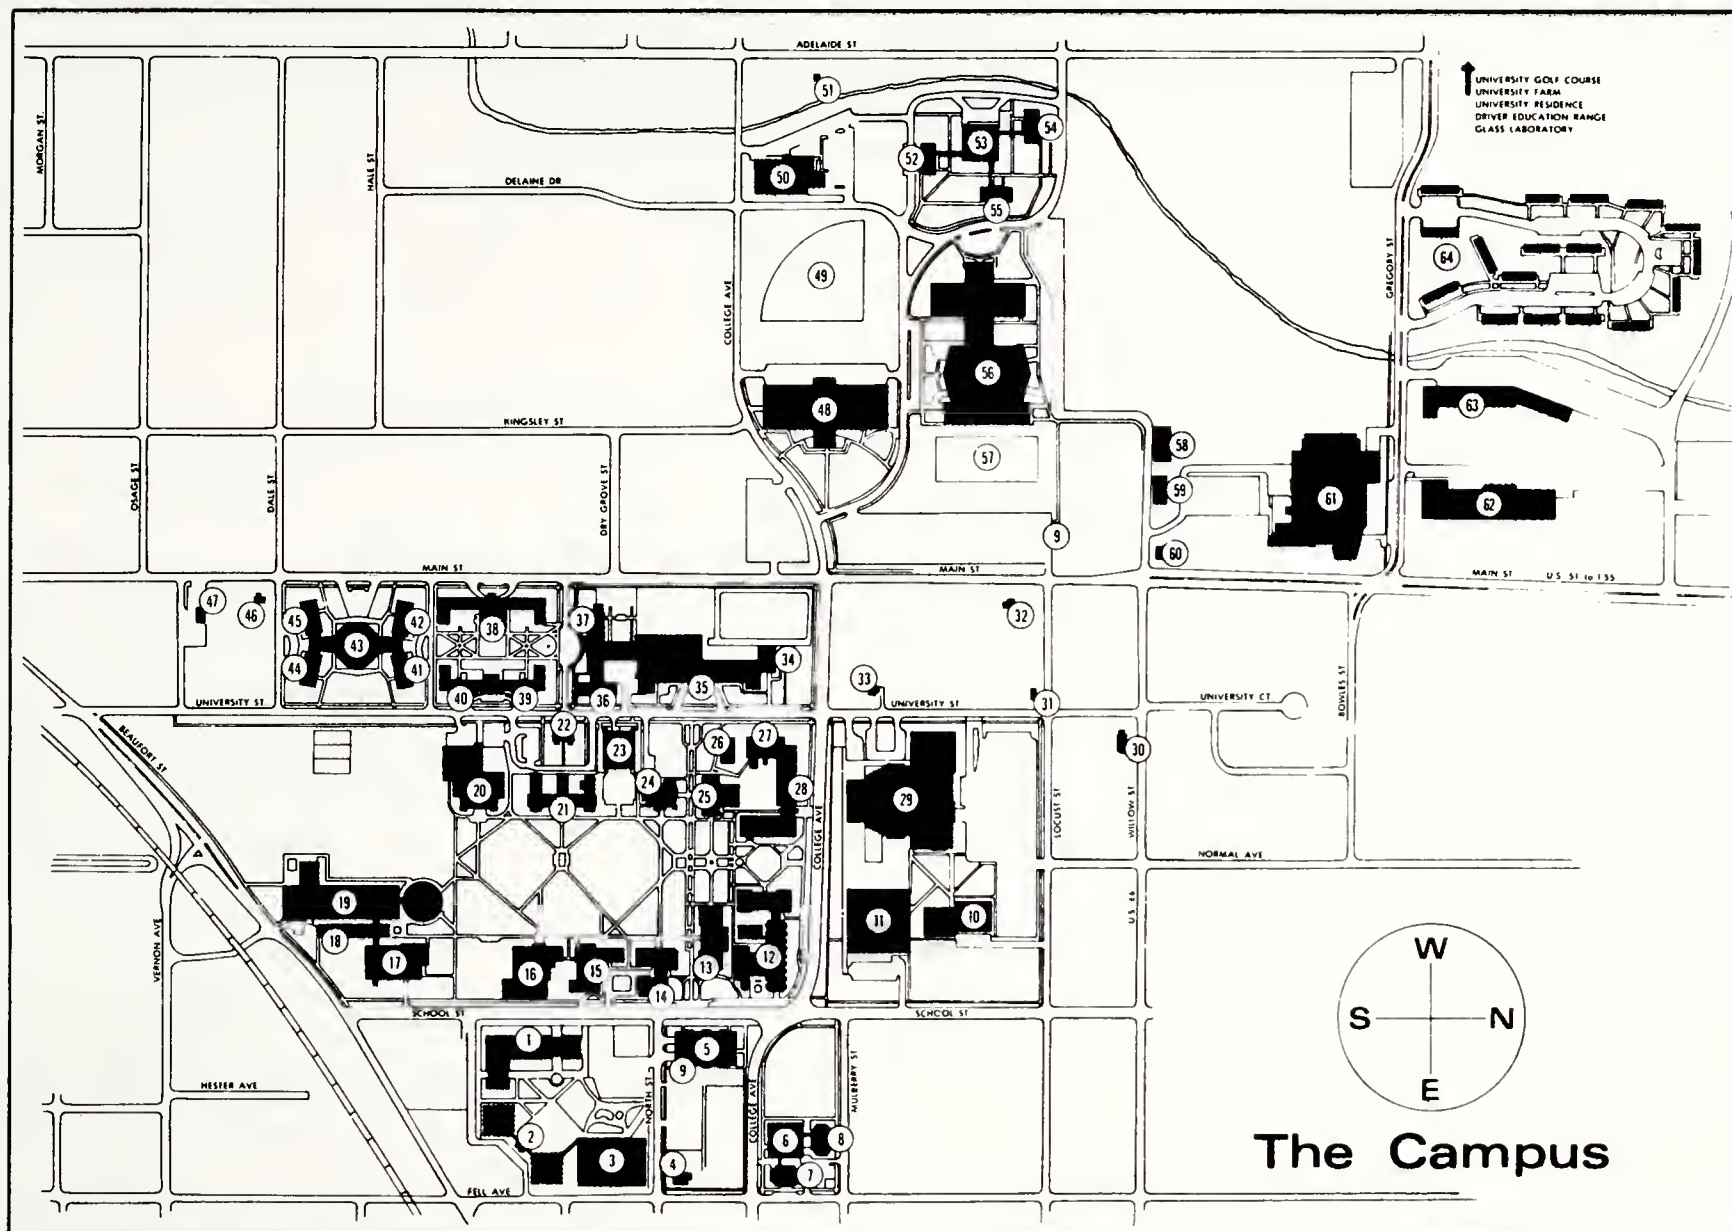

STUDENT ASSOCIATION FOUNDATION

The Foundation is very young and weak but is the organization that will help Student Association become even stronger. The Foundation is NOT a part of the Student Association but is a separate organization that does not receive student fees. It has its own constitution and is incorporated in the State of Illinois. It is a non-profit organization whose purpose is charity and educational support. The Foundation engages in many various projects from time to time. The organization is made up of a Board of Directors and an Executive Director.

Academic Senator Jim Phillips and Scott Campbell catch some sun between classes

STUDENT ASSOCIATION ASSEMBLY

The Assembly is the directive area of the Student Association. Membership includes thirty-three (33) elected students from on and off campus. The 33 seats are divided between on and off campus representatives in proportion to the actual number of on and off campus student residents. Ex-officio membership included the President, Vice President, Student Member to the Illinois Board of Regents, the Vice Chairperson of the Academic Senate (if a student), representatives from Greek Council, Black Student Union, Association of Residence Halls and the Veterans Association. The total number of members possible on the Assembly is forty-one (41).

To qualify to run for the Assembly a student must

be a Student Association member and be in good academic standing. The elections are conducted under the supervision of the Elections Committee. Elections are held in the spring and fall of every year with half the Assembly being elected at one election and the remainder being elected in the following election.

The Assembly is mainly concerned with student-oriented issues but often within its constitutional scope will recommend to the Academic Senate or the governing body as it so resolves. The Assembly does not set policy except for the staff and agencies. The Assembly represents students' interests before whatever governing body or responsible person who establishes policy. The meetings of the Student Association are held on Sunday evenings with public notice given. Assembly meetings are open to the public and all are invited.

STUDENT ASSOCIATION ASSEMBLY EXTERNAL COMMITTEES AND COUNCIL COMMITTEES

The Student Association Assembly has six Council Committees made up of Assembly members and students at large. The committees are ongoing and work on issues that come to the Assembly. The Council Committees are:

Review and Long Range Planning is made up of five students, three Assembly members and two students at large. The Review and Long Range Planning examines resolutions of the Student Association so that a constant direction is being taken toward Student Association goals. The committee also examines the constitutionality of Assembly actions.

Public Affairs is composed of students with four students at large. This committee has the broadest scope because it examines special or unique issues or ones that no other Council Committee will examine.

Employment and Financial Aids is made up of five students with two students at large. This Council Committee does policy work on issues like tuition, school loans and student employment policies. It is an extremely specialized area but at the same time very demanding because of the complexity in funding higher education.

Placement Advisory Committee is made up of five students. The Placement Office is very busy placing ISU graduates or soon to be graduates into jobs. This institution revolves quite heavily around teacher education therefore making the Placement Service very important. This committee advises the Director of Placement Services of student concerns.

Student Advisory Committee to Financial Aids is made up of five students. This institution has approximately 60% of its students receiving some form of financial aid. This alone probably illustrates the need for students to participate in the decision making of the Financial Aids Office. All policies and procedures regarding financial aid and student employment within the University can be examined.

Student Advisory Committee to the Counseling Service has six students; five undergraduate and one graduate. Many students come to ISU with no concept of what university life is all about or their parents want them in one field of interest but they want another—whatever; it is common for students to need the services of the Counseling Center. This committee advises the Director on the policies within the Counseling Center.

Student Advisory Committee to Public Safety has five student members. The committee advises the Director of Public Safety on policies and procedures.

The **Budget Council Committee** is composed of seven students; three at large. This committee authors the budget proposals for the Student Association and reviews any budgetary type issues. It is this area where monetary allocations are under scrutiny.

Student Health Advisory Committee has five student members. The Health Service is a large operation trying to help students when they have a health problem or injury. The committee helps the Director become aware of student needs and wants. It was this committee that recommended strongly to the Health Service to obtain an in house pharmacy. This will be in operation shortly.

To be eligible for Student Association Assembly External Committee membership a person must be a Student Association member and be in good academic standing. The selection of members is conducted in accordance with the Student Association Personnel Selection Code.

The **Student Services** is made of seven students with three being at large. This Council Committee continually searches and strives to find better and new methods of extending services to Student Association members. All policies concerning Student Association Services are examined by the Student Service Council Committee.

The **Personnel Council Committee** is made of seven students with three at large. It acts in accordance with the Student Association Personnel Selection Code to oversee that all committee and staff positions are filled and in the appropriate manner.

The Council Committees are standing committees of the Assembly but are made Ad Hoc in order to maximize student at large involvement. To be eligible for a Council Committee a person must be a Student Association member and be in good academic standing.

The Student Association External Committees are different from the Council Committees in that they are made up of at large students. The External Committees meet when a time is agreed upon by other committee members. The committee self-elected chairperson keeps in contact with the Student Association President for reporting what has happened or is needed.

Academic Advisement Advisory Committee is made up of five students. They advise the Director of Academic Advisement on policies and procedures. This committee, if it deemed it necessary, could make a committee recommendation to the Assembly for a resolution.

Students' Legal Services Committee is composed of four students and two voting faculty members. This committee provides the general direction for the day to day operation of the Students' Legal Services Office. The Students' Legal Services Office is a professional office that needs dedicated people on the committee to keep the quality of performance high and consistent to the Student Association philosophy and goals.

Elections Committee is made of three students. This committee insures all elections are conducted in accordance with the Student Association Elections Code. The implementation and review of grievance is under the auspices of this committee.

OTHER POSITIONS

Student Member on the Illinois Board of Regents. This student is a full member on the Board of Regents, however, the student is without a vote. The Board of Regents is the governing body created by the General Assembly of Illinois for supervision of Illinois State University, Northern Illinois University and Sangamon State University. This student is selected in accordance with the Student Association Personnel Selection Code and confirmed by a 2/3 vote of the Assembly.

Student Advisory Committee to the Board of Higher Education. This student committee created by the General Assembly to advise the Board of Higher Education on student concerns has two representatives from ISU appointed by the Student Association President. The Board of Higher Education maintains supervision over all higher education institutions in Illinois.

Association of Illinois Student Governments (AISG). The Student Association President is a member of the AISG Governing Board. The Governing Board represents student body presidents, or his/her designees, from all across the country. AISG is mainly

a lobbying group from public higher education institutions to voice their concerns about legislation in the General Assembly. AISG also acts as a clearinghouse for higher education information so that institutions can readily share the information.

The Student Association is a large organization that has many relationships with other organizations and agencies. One important relationship is the Academic Senate and the Student Association. The Academic Senate operates under a system of shared governance which includes decision making from students, faculty and administrators. The Academic Senate also has standing and external committees, all of which need and desire student participation in their decision making process.

The Academic Senate and the Student Association are very important to the student's everyday welfare. If you would like to know more, please take at your own opportunity, time to visit Student Association, 225 N. University or call 436-6661 and make an appointment. There is a 24 hour answering service; so if no one is in leave a message and the Student Association will quickly respond. Your participation would be greatly appreciated.

Remember, working with Student Association is working to work for others.

 Monday—ham and scalloped potatoes \$1.⁵⁰
 Tuesday—meat loaf dinner \$1.⁸⁵
 Wednesday—country fried steak dinner \$1.⁹⁰
 Thursday—goolash dinner \$1.⁴⁰
 Friday—macaroni & cheese dinner \$1.³⁰

As of June, 1976

Hewett and Manchester

Hewett, which opened in 1966, houses female students. Guest hours are unrestricted seven days, 24 hours.

Manchester is a co-educational residence hall. Floors 2 and 3 are female. Floors 4, 5, and 6 are co-ed. Floors 7 through 17 are male. Guest hours are unrestricted seven days, 24 hours.

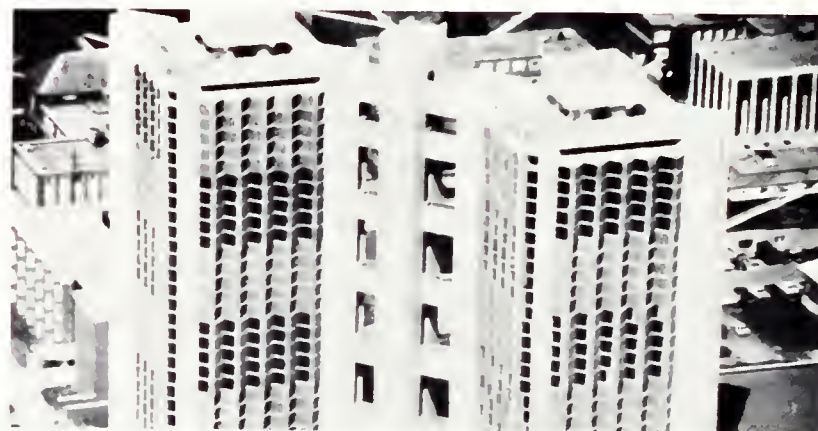

Dunn-Barton

Dunn Barton, opened in 1950, houses 426 female students. Guest hours are unrestricted seven days, 24 hours.

Walker

Walker Hall, opened in 1955, houses male students. Guest hours are unrestricted seven days, 24 hours.

Watterson Towers

Watterson Towers opened in 1968. It is among the world's tallest residence halls. Watterson is a twin-tower complex which houses 2200 residents. Watterson consists of ten Houses. Smith and Van Buren houses are male. Jefferson, Clay, Madison, and Marshall houses are female. Randolph, Monroe, Adams, and Pickering houses are co-educational. Guest hours are unrestricted seven days, 24 hours in all Houses. (The Houses were named for the first ten U.S. Secretaries of State.)

Pickering and Adams Houses have two suites each to provide for a structured, controlled, and co-ed Selective Living Environment, with emphasis on study conditions.

(Watterson is not recommended for students new to the campus.)

Atkin-Colby and Hamilton-Whitten

Atkin-Colby, opened in 1961, houses 816 female students. Visiting hours for members of the opposite sex conclude at 11:45 Sunday-Thursday. Guest hours are unrestricted Friday and Saturday.

Hamilton-Whitten, opened in 1960, houses 816 students. Guest hours are unrestricted seven days, 24 hours. All floors of Hamilton are female. In Whitten, floors 2, 3, 4, 5, and 6 are male. Floors 1 and 7 through 10 are female.

International House

International House is a co-educational residence and program center for 250 students. It is designed for foreign and domestic students who wish to participate in inter-cultural growth programming experiences. There are 123 spaces for men, 127 spaces for women. Guest hours are unrestricted seven days, 24 hours. A special application is required in addition to the regular contract. (The International House is not recommended for students new to the campus.)

Wilkins, Wright and Haynie

Wilkins is an all male hall. Guest hours are unrestricted seven days, 24 hours.

Wright is a co-educational hall. Floor 3 is female. Floor 2 is co-ed. Floors 4 through 11 are male. Guest hours are unrestricted seven days, 24 hours.

Haynie is an all female hall. Guest hours are unrestricted seven days, 24 hours.

ONE OF THESE DAYS YOU'RE GOING TO GET YOURS

A Domino's pizza, that is. The word's out that Domino's not only makes the best pizza in town, but that they deliver it fast, usually within 30 minutes.

And there's no charge for delivery. These are the big reasons why Domino's is rapidly becoming the most popular pizza home in town. So, next Saturday, after a hard day of "girl passing" in the stands settle down to a pizza from Domino's. You owe it to yourself.

The Domino People are pizza people, Period.

NAVY JOBS

F-14 ***TOMCAT***

DISSATISFIED?

Having trouble locating a good job? Tired of doing the same old thing every day? Looking for a job with a future? The Navy can offer you, if you qualify, a wide variety of jobs, each promising a challenge. We'll give you the very best in training in fields including electronics, computers and engineering. You'll work hard, but you'll be proud knowing you're the best. You can travel to other lands, meet new and interesting people. If you're not satisfied with your life up to now we're looking for young men and women who are interested in a future. For more information:
